

# KRADWELL SCHOOL

## Where Success is the Rule

### Summer School Enrollment Now Open

Enrollment is now open to students for Kradwell School's Summer School program. Kradwell offers complete high school core curricula designed with the right balance of challenging academics in a relaxed summer school setting. We give students, including those who are credit deficient, an opportunity to start the fall semester with a stronger academic base. Students can complete two-semester courses in classes such as Advanced Algebra, Biology, Chemistry, and U.S. History. Kradwell provides a successful learning experience to all student populations. We work with students battling anxiety, depression, ADHD, and students on the Autism Spectrum and others who are unsuccessful in a traditional school environment.

Benefits of Kradwell's summer school program

- Individualized instruction
- 5:1 student-teacher ratio
- Experienced teachers
- Weekly progress notes from each teacher posted online
- Flexible scheduling
